

## Warranty Policy

Power Avionics and Accessories, Inc. offers warranties in respect to the services provided (12 months on Repair, and 18 months on Overhaul) on aircrafts components. Unless stated otherwise components that have only been tested by Power Avionics and Accessories will only have install warranty.

Power Avionics and Accessories warrants that all work accomplished will be free from defects resulting from poor workmanship and/or faulty materials in replacement of spare parts used during the repair or overhaul procedure.

Power Avionics is not obligated to repair under warranty any component defective due to improper use, mis-handling, tampering or improper and/or inadequate storage. Power Avionics warranty seals and safety wire must be intact and free from tapering. This warranty does not extend to materials that have not been replaced during the previous repair or overhaul, normal wear and tear nor consequential damage.

AVIONICS & ACCESSORIES

Power Avionics and Accessories must verify and confirm the validity of any claim under warranty. If customer warranty claim is verified and accepted, Power Avionics and Accessories will repair at no charge.

Any component claimed under warranty shall be returned properly and safely packaged to Power Avionics and Accessories. Following the warranty repair by Power Avionics and Accessories the warranty period shall reset from the date the new certificate is issued.
