

Power Avionics & Accessories Warranty Policy

Power Avionics & Accessories. (PAA) under this warranty policy (“Warranty Policy”) warrants its overhaul and repair services (“Services”) to be free from defects in material and workmanship for the following periods of time and/or hours of operation. Each unit will have an authorized release certificate return to service tag affixed indicating the date that the warranty period begins.

MECHANICAL, ELECTRICAL, ELECTRONICS, INSTRUMENTS, AND RADIOS ACCESSORY REPAIR/OVERHAUL WARRANTY

PAA warrants the following to be free of defects in material and workmanship, under normal use and excluding normal wear items, for the following periods:

- **Mechanical/Accessory overhaul** – Twelve (12) months from the issued date of authorized release certificate. This warranty covers labor and parts previously replaced by PAA at time of overhaul.
- **Mechanical/Accessory repairs** – Six (6) months from the issued date of authorized release certificate. Warranty does not give full coverage on any failure during this time period, but is limited to the repair or replacement of parts and/or subassemblies replaced by PAA during the service action.
- **Electronic Components/Instruments/Radios overhaul** – Twelve (12) months **limited**. Electronic components are tested and their function verified at the time of test. There is no way to verify the service life of an electronic component without destroying it. Therefore, it is PAA’s policy to warranty only the electronic components parts replaced at the time of overhaul.
- **Electronic Components/Instruments/Radios repairs** – Six (6) months **limited**. Electronic components are tested and their function verified at the time of test. There is no way to verify the service life of an electronic component without destroying it. Therefore, it is PAA’s policy to warranty only the electronic components parts replaced at the time of repair.
- **Bench Test/Inspections and Certification** – Thirty (30) days **limited on install** from the issued date of authorized release certificate. On units that are only bench tested or inspected and found to be within tolerance as described by the manufacturer’s specifications, the Customer will be responsible for the bench test or inspection and recertification charges.
- **No Fault Found Returns** – If a unit is examined by PAA under a warranty claim and found to meet all manufacturer’s test specification, the Customer will be responsible for the Bench Test and Certification and Transportation charges.

Warranty is limited to those items/parts related to previous repair.

Warranty will be considered void if any of the following conditions exist:

1. External damage.
2. Any other evidence of mishandling.
3. Tampered or altered PAA warranty seals and/or safety wire.
4. Defects resulting from improper use or installation.
5. If warranty times mentioned in PAA Warranty Policy have elapsed.

Power Avionics and Accessories (PAA) must verify and confirm the validity of any claim under warranty. If customer warranty claim is verified and accepted, PAA will repair at no charge. Any component claimed under warranty shall be returned properly and safely packaged to PAA. Following the warranty repair by PAA the warranty period shall reset from the date the new Authorized Release Certificate is issued.
